

Computer Club

Be a computer expert!

Computer club is dedicated to making “computer learning” fun and easy. In our playful, fast-paced classes, children learn about computers and technology in an environment that promotes confidence, creativity, and independence.

The course is designed to meet the requirements of the UK National Curriculum for Information Communications Technology (ICT) and is tailored to meet the needs of each individual child, based on their age, skills and computer knowledge.

Topics & skills include:

- develop confidence and coordination using a mouse
- enhance mathematical knowledge and problem solving
- use a mouse & keyboard to interact with age-appropriate software
- learn the different parts of a computer
- develop self-expression and creativity
- become familiar with a keyboard
- expand language skills & improve fine motor skills
